

Chest Pain

If you have chest pain you **must** seek medical advice.

Severe chest pain

Contact your General Practitioner. If your doctor can not be contacted immediately then you should **ring an Ambulance**.

- **Dial 000 for an ambulance**
- You will be asked which service you require – Ambulance, Fire or Police
- Nominate – Ambulance
- You will need to tell them your **address and the nearest corner**
- State that the **patient has chest pain**
- Stay with the patient and place them in a semi-reclining position while awaiting the ambulance

It is advisable to use an ambulance if the metropolitan area, and not drive the patient yourself.

**IF YOU HAVE CHEST PAIN CALL AN AMBULANCE
DO NOT DRIVE**
